KOMANDOR

OP1 system

Opal OP1 – simple, geometric shape profile, surrounding the insert like a frame. Hinged doors made in OP1 can be perfectly adapted to any style of rooms, from minimalistic to modern. The simple yet designer shape of the frames and their timeless colours will add a refined and elegant look to both the interior and the furniture. Pivoting doors in Opal frames will finish any wardrobes, display units and bookcases beautifully.

Opal OP1 system enables production of pivoting doors with a frame, with glass insert – also transparent – and mixing various glass colours within one door.

PARAMETERS

- max door height: 2,75 m
- max door width: 0,60 m
- insert: 4mm

PROPERTIES

- possibility to use Push to Open mechanism
- possibility to use handles
- possibility to use hinges with a soft close to ensure silent closing of the door
- visible, simple frame

PROFILE COLORS

white

anode natural

anode graphite

anode black

OP14

system

Opal OP14 with an invisible frame is a profile for glass fronts and a proposal to create interesting and functional hinged doors in various sizes. Doors in the Opal OP14 system can be used in walk in wardrobes, cabinets, chests of drawers, or other custom-made furniture in which we want to display glass as a raw material for the front.

PARAMETERS

- max door height: 2,75 m
- max door width: 0,60 m
- insert: 4mm

PROPERTIES

- possibility to use the Push to Open mechanism
- possibility to use handles
- possibility to use hinges with a soft close to ensure silent closing of the door
- invisible frame

PROFILE COLORS

anode natural

anode graphite

Handles

Low profile handles in matching finishes

- 120mm (4 ¾") handle
- 216mm (8 ½") handle
- 344mm (13 ½") handle

Trim

Structural joiner rails are possible to join two dissimilar glass materials for example

Decorative mullions are possible to divide one piece of glass into multiple sections vertically and/or horizontally

Inserts

- Clear and frosted glass
- Architectural pattern glass
- Mirror - silver, brown, grey and antique
- Back-painted glass

W = 200-600 mm - glass 4 mm
