ORTO system

Orto - the system is based on a narrow, modern profile with a slender line, which gives light and an open feeling to the design. Orto profiles are available in two versions: single and double. As a single, wall-mounted Orto profile adds delicacy and lightness to the construction. In the second option, as a structure of two profiles, it emphasizes the stability and technical character of the furniture. This option does not require mounting to the wall. Shelves and drawers, bars or cabinets can be mounted to the system, which gives a wide range of possibilities to design in any area of your home.

Orto built-in system fits perfectly into modern, industrial, loft or minimalistic interiors. It looks fresh, luxurious, and effective in bright and spacious living rooms and wardrobes, completely changing the character and atmosphere of the room.

PARAMETERS

- max door height: 2,77 m
- max width of 18mm shelf: 0,8 m
- max width of 28mm shelf: 1,2 m
- max width of hanger rod: 1,2 m
